Object Lessons is a series of short, beautifully designed books about the hidden lives of ordinary things. Hair, a primary marker of our mammalian nature, is an extraordinary indicator of economic and social standing, political orientation, religious affiliation, marital status, and

cultural leanings, among other things. The meanings of hair are deep, powerful, and so strongly embedded in cultural conditioning that they are usually understood unconsciously (and all the more strongly for that). In untangling its myriad meanings, Scott Lowe reveals just how little we control our hair, no matter the style: each and every passer-by decides on its significance anew. From Hittites to hippies and Pentecostals to porn stars, *Hair* combs through a ubiquitous personal yet public object, a charged and carefully managed dead thing. *Object Lessons* is published in partnership with an essay series in *The Atlantic*.

Unstoppable is a word defined as "difficult or impossible to preclude or stop." As a human quality, it is something that we associate with people such as sports superstars, those who do whatever it takes to inspire others and lead teams to the greatest of victories. Sometimes, an idea or person can become unstoppable. Unstoppable, like Charles Lindbergh crossing the Atlantic in a solo flight when no one had thought it was possible, or track star Roger Bannister breaking the four-minute mile barrier. Not everyone can be an explorer or a great athlete, but anyone can be unstoppable in their chosen endeavors in life. If you are willing to possess an unwavering determination to succeed and a consistent willingness to learn and evolve, you can become unstoppable and triumph too. This book is about a personal struggle, one in which the author awoke from a coma after a terrible accident and faced a life of permanent paralysis. A long battle of driven determination resulted in Yanni Raz regaining his health and becoming a self-made millionaire after migrating from his native Israel to the United States. Through careers as a musician, a Starbucks barista, a salesman, a real estate whiz, a professional poker

player and a hard money lender, Yanni learned reliable principles and the skills necessary for success. Unstoppable covers many topics including controlling your life, making the best decisions, creating new opportunities, properly assessing signals, expertly negotiating, and succeeding by storytelling across the media landscape. You'll learn about integrity in business, asset diversification, and many other life tips that thousands of people learn from Yanni on a daily basis. It is time to become fearless and lead a powerful life. With Yanni's new book Unstoppable, you can do just that.

One of the first books ever published to objectively study the life and work of Franklin Jones, also known as Bubba Free John, Da Free John, Adi Da, an infamous cult leader who attracted both devotees and detractors. Contains original essays by Professor Scott Lowe (University of Wisconsin) and Professor David Lane (Mt. San Antonio College). Review by Professor Robert S. Ellwood, formerl Bashford Professor of Oriental Studies, USC, writing in in NOVA RELIGIO: "This short book is among the very few important studies of one of the most interesting and outrageous sixties-generation American gurus. This book consists of two essays, both revised versions of articles that appeared in Lane's Exposing Cults: When the Skeptical Mind Confronts the Mystical (New York: Garland, 1994). The first is a hard-headed but fair-minded assessment of the way in which spiritual guides can deliver teaching that is morally and mystically elevated, yet which seems to help others more than the guides themselves, producing the phenomenon of "crazy adepts and sane disciples." If this is an accurate description of Da Free John, he far from alone, and the article ought to be useful to generalists in the study of new religions. Scott Lowe's piece, basically an account of

his own brief youthful stay with Jones' group in 1974, complements Lane's article with firsthand information of what the group was like in its early years. These two well-written essays make a substantive contribution to our understanding of the dynamics of the disciple-guru relationship in new religious movements."
