This series provides approachable, yet authoritative, introductions to all the major topics in linguistics. Ideal for students with little or no prior knowledge of linguistics, each book carefully explains the basics, emphasising understanding of the essential notions rather than arguing for a particular theoretical position. *Understanding Semantics* offers a complete introduction to linguistic semantics. The book takes a step-by-step approach, starting with the basic concepts and moving through the central questions to examine the methods and results of the science of linguistic meaning. *Understanding Semantics* unites the treatment of a broad scale of phenomena using data from different languages with a thorough investigation of major theoretical perspectives. It leads the reader from their intuitive knowledge of meaning to a deeper understanding of the use of scientific reasoning in the study of language as a communicative tool, of the nature of linguistic meaning, and of the scope and limitations of linguistic semantics. Ideal as a first textbook in semantics for undergraduate students of linguistics, this book is also recommended for students of literature, philosophy, psychology and cognitive science.

Research Methods: The Basics is an accessible, user-friendly introduction to the different aspects of research theory, methods and practice. This second edition provides an expanded resource suitable for students and practitioners in a wide range of disciplines including the natural sciences, social sciences and humanities. Structured in two parts – the first covering the nature of knowledge and the reasons for research, the second the specific methods used to carry out effective research and how to propose, plan, carry out and write up a research project – this book covers:

- Reasons for doing a research project
- Structuring and planning a research project
- The ethical issues involved in research
- Different types of data and how they are measured
- Collecting and analysing qualitative and quantitative data in order to draw sound conclusions
- Mixed methods and interdisciplinary research
- Devising a research proposal and writing up the research
- Motivation and quality of work.

Complete with a glossary of key terms and guides to further reading, this book is an essential text for anyone coming to research for the first time.

How can governments ensure that women have the same employment and entrepreneurship opportunities as men? One important step is to level the legal playing field so that the rules

for operating in the worlds of work and business apply equally regardless of gender. Women, Business and the Law 2018, the fifth edition in a series, examines laws affecting women ' s economic inclusion in 189 economies worldwide. It tracks progress that has been made over the past two years while identifying opportunities for reform to ensure economic empowerment for all. The report updates all indicators as of June 1, 2017 and explores new areas of research, including financial inclusion.

How far would you go to get over a guy? When Grace Emerson's ex-fiancé starts dating her younger sister, extreme measures are called for. To keep everyone from obsessing about her love life, Grace announces that she's seeing someone. Someone wonderful. Someone handsome. Someone completely made up. Who is this Mr. Right? Someone...exactly unlike her renegade neighbor Callahan O'Shea. Well, someone with his looks, maybe. His hot body. His knife-sharp sense of humor. His smarts and big heart. Whoa. No. Callahan O'Shea is not her perfect man! Not with his unsavory past. So why does Mr. Wrong feel so...right?

The National Transport Development Policy Committee (NTDPC) was constituted by the Government of India to formulate a long-term transport blueprint for the country. The NTDPC Report -- designed as a five-volume set, of which this is Volume I -- comprehensively examines all aspects of the Indian transport sector and recommends appropriate policies for governments in developing this crucial sector to enable an average annual growth rate of 8-9 per cent for the Indian economy over the next two decades. The horizon is year 2032, two decades from the beginning of the country's 12th Five Year Plan to the end of its 15th. It will be of interest to researchers and students of development studies; transportation and infrastructure studies; governance and public policy; and economics as well as policymakers, economists, public and private sector companies concerned with Indian infrastructure sectors, banks and financial institutions.

Eons ago, vampires tried to turn the Dark Fae in order to harness their magic, only to create a demonic enemy more powerful than they imagined. Now Myst, the Vampiric Fae Queen of the Indigo Court, has enough power to begin a long prophesied supernatural war. And Cicely Waters, a witch who can control the wind, may be the only one who can stop her-and save her beloved Fae prince from the Queen's enslavement.
