The fifth edition of Delmar's Automotive Service Excellence (ASE) Test Preparation Manual for the A7 HEATING AND AIR CONDITIONING certification exam contains an abundance of content designed to help you successfully pass your ASE exam. This manual will ensure that you not only understand the task list and therefore the content your actual certification exam will be based upon, but also provides descriptions of the various types of questions on a typical ASE exam, as well as presents valuable test taking strategies enabling you to be fully prepared and confident on test day.

Automotive Heating, Ventilation, and Air Conditioning is an authoritative guide in the CDX Master Automotive Technician Series that teaches students everything they need to know about mobile HVAC, from basic system design and operation to strategy-based diagnostics. The text combines tried-and-true techniques with information on the latest technology so that students can successfully diagnose and fix any mobile HVAC problems they encounter in the shop.

Updated to reflect the latest trends, technology, and relevant ASE Education Foundation standards, this integrated, two-book set covers theory and hands-on content in separate Classroom and Shop

Manuals. This innovative approach allows students to learn fundamental climate control theory, including basic physics related to heat transfer, before applying their knowledge through practical, hands-on shop work. Cross-references in each manual link related material, making it easy to connect classroom learning to lab and shop activity. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

With comprehensive coverage of all topics, this book follows ASE guidelines to review a sample ASE test and prepare learners for certification. Over 100 multiple-choice items duplicate the type of questions found on the ASE exam, and provide explanations of what makes each right answer correct and the wrong answers incorrect. The guide's practical, concentrated coverage focuses learning on topics that will be covered on the certification exam, and have been determined to be important by the ASE. An ASE task list enables readers to make the distinction between the need-to-know and nice-to-know information. For individuals and distance learners preparing for ASE certification.

Prepare to pass any automotive ASE exam with help from this newly revised package of test preparation booklets. Each title in this popular series features the recently updated task list for the ASE topic of that book, with written overviews that describe the actual work that needs to be done as a technician that will be tested on by ASE. Technicians seeking certification in any one of the automotive ASE exam areas will benefit from the valuable preparation offered, including ASE test taking strategies, hundreds of ASE-style exam questions, and detailed explanations as to why a particular answer is correct or incorrect. The newest booklet, (C1) Service Consultant, rounds out this comprehensive package.

Ideal for both novice and advanced technicians, Automotive Heating and Air Conditioning, 8/e, provides a complete, state-of-the-art
