Blood Enemy is a non-canon prequel to the Underworld series before the events of Underworld and Underworld: Evolution. It is written by Greg Cox, who also wrote the novelizations for Underworld, Underworld: Evolution and Underworld: Rise of the Lycans. Notably, Blood Enemy directly contradicts Underworld: Rise of the Lycans and parts of Underworld and Underworld: Evolution.

Graphic violence is one of the central features of Blood. Enemies can be blown to pieces, with streams of blood and chunks of flesh raining down. Zombie heads can be shot off and then kicked around like soccer balls, spewing fountains of blood from the neck. If enemies are set on fire, they burst into flames and run around flailing their limbs.

Blood lines will be torched...

Once the servants of the vampires, the werewolves use their power to transform themselves into beasts of unearthly ferocity against their former masters, aristocrats with a sensual appetite for blood, in a clandestine conflict, in a prequel to the blockbuster film. Original. (Prequel to the Sony Pictures film, written by Danny McBride, starring Kate Beckinsale, Scott Speedman, Shane Brolly, Robby Gee, Erwin Leder, Wentworth Miller, Sophia Myles, Bill Nighy, & Michael Sheen) (Horror)

A NEW ENTRY IN THE LEGENDARY, CRITICALLY ACCLAIMED UNDER JURISDICTION SERIES! TO END A GENOCIDAL MENACE, A RETIRED TORTURER MUST AGAIN TAKE UP HIS HATED TRADE Andrej Koscuisko is a former Fleet Medical Officer for the enormous totalitarian star empire, the Jurisdiction. But when he served in the Fleet, Andrej ’ s real job was not medicine, at least not primarily medicine, but to act as a torturer of prisoners, whether they had information to give or not. To help him in his duties, Andrej was attended by " bond involuntaries "—slaves—men he ’ d come to look upon as friends and family. Finally, enough was enough. Andrej absconded with six of his Fleet-provided security slaves and sent them into the no-man ’ s land of Gonebeyond Space—beyond the reach of the Jurisdiction ’ s tyrannical Bench. Now The Angel of Death, a savage terrorist organization from Andrej ’ s system of origin, means to make Gonebeyond its own. But its ancestral enemy – the secret service of the Dolgorukij church, the Malcontent – has planted a double agent on the inside of the Angel of Death. Finally this interstellar menace might be destroyed forever. But there is trouble. Andrej Koscuisko wasn ’ t expected to escape from protective custody at Safehaven Medical Center and come looking for his freed bond involuntaries, and now the Malcontent faces Andrej ’ s unplanned intervention at the worst possible time. Now the only way to save the mission and bring down an organization that has slain whole systems of men, women, and children is for Andrej to embrace the savagery in his own heart and once again take on the role of Judicial torturer—a role that he had fought long and hard to escape. He must deploy every dirty trick and brutal stratagem he knows against the Malcontent agent whose secret he has unwittingly betrayed. At the publisher’s request, this title is sold without DRM (Digital Rights Management). About Blood Enemies: "A very satisfying entry in a very scary series!"—Janis Ian "Starting with An Exchange of Hostages, I devoured Susan R. Matthews 'Koscuisko' novels—all six of them—when they first appeared. Books with this much courage, clarity, and empathy are rare. The Under Jurisdiction series is a remarkable and unprecedented accomplishment. "—Stephen R. Donaldson, New York Times best-selling author of the Thomas Covenant series. More praise for Susan R. Matthews: " [Matthews] brilliantly uses science fiction ’ s freedom of creation to make a world in which she can explore deep moral conflicts. "—Denver Post " . . . has a dark energy . . . an extremely compelling read. "—New York Review of Science Fiction " A chilling and engaging novel of false accusation and the power of personal responsibility. "—Booklist on Angel of Drestruction " A tightly woven space opera full of grand heroic gestures and characters strong enough to sustain all the action. "—Booklist on The Devil and Deep Space

Jax and I can't be together.We're too different.We're enemies by blood.There's just one problem...We're mated again, too.How can I love someone I was born to hate?

[Book 4 of The Deceiver Saga] The Deceiver Saga continues in Blood Enemies with a rush of uncovered secrets and exposed lies. Melanie Bishop wasn't prepared for the gruesome discoveries she makes while digging into her past and investigating her father. She had always known him to be a cruel and sadistic man, but as she and her friends seek to unveil the truth and begin linking his past with his present, they discover a legacy bursting with dark cravings, evil deeds and crimes more heinous than they'd ever thought possible. The tangled nest of carefully concealed lies and family secrets cause Melanie to question everything and everyone. Every question brings forth more questions, and every glimpse of truth, uncovers more lies. But Melanie doesn't have time to let her doubts consume her for long. Her father is spotted closing in and escapes police capture. The demons that drive him are growing desperate to find a way into her life, to destroy her and those she cares about.Though the road ahead is guaranteed to be painful, merciless, and exhausting, Melanie refuses to quit. If she walks away from pursuing the truth, more lives will be at stake and she could lose the people she loves forever. No matter the cost, she knows she can't stop because he won't ever stop coming until they are all dead.*Due to content, author recommends that readers be 13 years of age or older.

In 1956, in the Brazilian state of Rondônia, a group of Wari ’ Indians had their first peaceful contact with whites: Protestant missionaries and officers from the national Indian Protection Service. On returning to their villages, the Wari ’ announced, “ We touched their bodies! ” Meanwhile the whites reported to their own people that “ the region ’ s most warlike tribe has entered the pacification phase! ” Initially published in Brazil, Strange Enemies is an ethnographic narrative of the first encounters between these peoples with radically different worldviews. During the 1940s and 1950s, white rubber tappers invading the Wari ’ lands raided the native villages, shooting and killing their victims as they slept. These massacres prompted the Wari ’ to initiate a period of intense retaliatory warfare. The national government and religious organizations subsequently intervened, seeking to “ pacify ” the Indians. Aparecida Vilaça was able to interview both Wari ’ and non-Wari ’ participants in these encounters, and here she shares their firsthand narratives of the dramatic events. Taking the Wari ’ perspective as its starting point, Strange Enemies combines a detailed examination of these cross-cultural encounters with analyses of classic ethnological themes such as kinship, shamanism, cannibalism, warfare, and mythology.

Over the course of our lives, we make many things along the way. We make money, we make friends, we make love, and we make mistakes. We make an effort to rise, but unfortunately, we also make enemies. Although these enemies are sometimes physical forces, the hardest ones to defeat are often invisible and intangible. Those unseen nemeses of ours can come in the form of laziness, procrastination, insecurity, depression, and the list goes on. No matter what form our enemies take, we must find inner strength and use it to defeat them so we can move forward and advance to the next chapter of life. In Soup of the Day: Blood of Our Enemies, poet Mickey Moctezuma explores complex situations of difficulty, challenge, and emotion. He addresses heartbreak, cheating, substance abuse, and toxic relationships. Mickey ’ s poems allow you to enter his subconscious, relate to his plight, process your own feelings, and find catharsis after the many unavoidable traumas of life. Through catharsis comes healing and a bright future.

Analyzing slavery and other forms of servitude in six non-state indigenous societies of tropical America at the time of European contact, Vital Enemies offers a fascinating new approach to the study of slavery based on the notion of “political economy of life.” Fernando Santos-Granero draws on the earliest available historical sources to provide novel information on Amerindian regimes of servitude, sociologies of submission, and ideologies of capture. Estimating that captive slaves represented up to 20 percent of the total population and up to 40 percent when combined with other forms of servitude, Santos-Granero argues that native forms of servitude fulfill the modern understandings of slavery, though Amerindian contexts provide crucial distinctions with slavery as it developed in the American South. The Amerindian understanding of life forces as being finite, scarce, unequally distributed, and in constant circulation yields a concept of all living beings as competing for vital energy. The capture of human beings is an extreme manifestation of this understanding, but it marks an important element in the ways Amerindian “captive slavery” was misconstrued by European conquistadors. Illuminating a cultural facet that has been widely overlooked or miscast for centuries, Vital Enemies makes possible new dialogues regarding hierarchies in the field of native studies, as well as a provocative re-framing of pre- and post-contact America.
