Superconductivity - Wikipedia

Critical theory, Marxist-inspired movement in social and political philosophy originally associated with the work of the Frankfurt School. Drawing particularly on the thought of Karl Marx and Sigmund Freud, critical theorists maintain that a primary goal of philosophy is to understand and to help overcome the social structures through which people are dominated and oppressed.

1. The Concept of Taste. The concept of the aesthetic descends from the concept of taste. Why the concept of taste commanded so much philosophical attention during the 18th century is a complicated matter, but this much is clear: the eighteenth-century theory of taste emerged, in part, as a corrective to the rise of rationalism, particularly as applied to beauty, and to the rise of egoism ...
