This is a new dictionary which provides a clear and concise explanation of terms used in land, property and construction law and management. The four key areas of coverage are: planning/construction law, land law, equity/trusts and finance and administration. It will be a useful reference for property and building professionals and a personal purchase for students of property and construction law on building, construction management, estate management and law courses. Jack Rostron is an experienced author and editor whose 1997 Spon title Sick Building Syndrome has been well received and widely reviewed. His co-authors contribute the necessary specialist knowledge from their respective fields of teaching and legal practice.

A new dictionary which will provide a clear and concise exposition of the terms commonly used in the laws and associated management of property and construction.

The Dictionary of Construction Terms offers

Download Ebook Dictionary Of Property And Construction Law

clear and concise explanations of the most commonly encountered legal and technical terms, phrases and abbreviations used throughout the construction industry. It will save valuable time when searching for an authoritative explanation of a frequently used term and will become a practical reference for construction lawyers, practitioners and students, as well as those in related industries including planning, property and insurance. Why you should buy this book: There is no other all-inclusive collection of legal and technical terms available at present Convenient source of information for lawyers, practitioners and students Includes a list of common technical acronyms (ie. DPC, DPM, FFL) Lists acronyms of common institutions such as the ICE, JCT and ACE Examples of definitions: Modular construction A modern construction method whereby the building is constructed using prefabricated or pre-assembled building sections or modules. The three-dimensional building sections are typically fabricated and assembled in an enclosed factory environment and then delivered to site, ready for installation. Modular construction is aimed at minimising construction time by standardising design components, providing consistent quality and allowing site preparation and building activities to commence concurrently with the construction of the factory-made modules. Snagging The process of formally inspecting the

construction works to identify any incomplete works or defects in completed works. A snagging list (or 'punch list') is a schedule of defects resulting from this inspection. These items typically need to be rectified prior to the issuing of a completion certificate or handing-over of the works although in some cases a completion certificate will be issued with a snagging list attached.

This essential dictionary and phrase book includes every term you need to know when buying, maintaining, renovating or building a home in France. Accessible and comprehensive, it includes the technical words you won't find in an ordinary dictionary for tools and equipment and every aspect of painting, carpentry, roofing, plumbing and drainage. It also equips you with terminology for planning structural changes such as extensions and determining boundaries. An appendix of emergency phrases will make this a book you'll want to keep by the phone at all times. Whether you own a home or work in France, this book will help you talk to French tradesmen with authority and avoid costly misunderstandings as you pull down the language barrier brick by brick.

"Accessible, practical, and easy to use, it defines more than 3,000 essential commercial and residential real estate terms from the areas of appraisals, escrow, investment,
