connections between local government and federal government? Enter How to Be an American. While author and illustrator Silvia Hidalgo was studying for her citizenship test, she quickly found that the materials provided by the government were lacking. In order to more easily absorb the information, Hidalgo started her own illustrated reference to civics facts and American history essentials. She's collected her findings in How to Be an American, a freshly designed and illustrated two-color guide to all things America.

Perfect for the anti-aviary (or bird fanatic with a sense of humor), this snarky illustrated handbook is equal parts profane, funny, and—let's face it—true. Featuring 50 common North American birds, such as the White-Breasted Butt Nugget and the Goddamned Canada Goose (or White-Breasted Nuthatch and Canada Goose for the layperson), Kracht identifies all the idiots in your backyard and details exactly why they suck with humorous, yet angry, ink drawings. Each entry is accompanied by facts about a bird's (annoying) call, its (dumb) migratory pattern, its (downright tacky) markings, and more. With migratory maps and tips for birding, plus musings on the avian population and the ethics of birdwatching, this is the essential guide to all things wings. No need to wonder what all that racket is anymore!

teen who moves to Austin, Texas, and experiences the joys, clichés, and awkward humiliations of the American high school experience—including falling in love. Perfect for fans of Nicola Yoon, *When Dimple Met Rishi*, and John Green. Norris Kaplan is clever, cynical, and quite possibly too smart for his own good. A Black French Canadian, he knows from watching American sitcoms that those three things don't bode well when you are moving to Austin, Texas. Plunked into a new high school and sweating a ridiculous amount from the oppressive Texas heat, Norris finds himself cataloging everyone he meets: the Cheerleaders, the Jocks, the Loners, and even the Manic Pixie Dream Girl. Making a ton of friends has never been a priority for him, and this way he can at least amuse himself until it's time to go back to Canada, where he belongs. Yet against all odds, those labels soon become actual people to Norris...like loner Liam, who makes it his mission to befriend Norris, or Madison the beta cheerleader, who is so nice that it has to be a trap. Not to mention Aarti the Manic Pixie Dream Girl, who might, in fact, be a real love interest in the making. But the night of the prom, Norris screws everything up royally. As he tries to pick up the pieces, he realizes it might be time to stop hiding behind his snarky opinions and start living his life—along with the people who have found their way into his heart.

Leading urbanist Carole Rifkind takes readers on an illuminating tour through half a century of design in this comprehensive and lavishly illustrated book. From private homes and public housing to museums, religious and educational edifices, shopping centers, malls, and office buildings, the accessible text demonstrates the interplay between form and function, and how the uses of space, mass, materials, and ornament have evolved to produce the structures that surround us today. Rifkind also discusses the development of style and analyzes the contributions of more than two hundred architects, as well as the political and economic forces that influenced their work. Filled with over four hundred photographs and line drawings, *A Field Guide to Contemporary American Architecture* is an essential reference for both casual observers and serious scholars. Its in-depth exploration of the postwar intellectual, social, and artistic environment offers a unique perspective on our recent past and the forces that shape our modern landscape.
