Financial Management: Theory and Practice celebrates the 23rd Anniversary of its publication. Over these two decades, Indian business and finance have considerably changed owing to deregulation, liberalisation, privatisation, globalisation, and the ascendance of the services sector. The book has kept pace with these changes and captures the central themes and concerns of corporate financial management-making it both contemporary and comprehensive. The book seeks to: *Build understanding of the central ideas and theories of modern finance *Develop familiarity with the analytical techniques helpful in financial decision making *Furnish institutional material relevant for understanding the environment in which financial decisions are taken *Discuss the practice of financial management.

Aswath Damodaran, distinguished author, Professor of Finance, and David Margolis, Teaching Fellow at the NYU Stern School of Business, have delivered the newest edition of Applied Corporate Finance. This readable text provides the practical advice students and practitioners need rather than a sole concentration on debate theory, assumptions, or models. Like no other text of its kind, Applied Corporate Finance, 4th Edition applies corporate finance to real companies. It now contains six real-world core companies to study and follow. Business decisions are classified for students into three groups: investment, financing, and dividend decisions.

An informative, timely, and irreverent guide to financial investment offers a close-up look at the current high-tech boom, explains how to maximize gains and minimize losses, and examines a broad spectrum of financial

opportunities, from mutual funds to real estate to gold, especially in light of the dot-com crash.

About the Book: Financial management is a core subject which provides unavoidable part of the overall business management. This book adopts a fresh and innovative approach to the study of financial management for the students of B.Com., B.B.A., M.Com., M.B.A. and other professional courses like C.A., ICWA, C.S. The text is presented in the simplest language with easy concepts. Each paragraph has been arranged under a suitable heading for quick retention of concepts. This book also contains the suitable illustrations, solved problems and model questions.
