Well-crafted characters and well-paced action make Jonathan Moeller's "Ghost" series an entertaining read. He deftly weaves sorcery into the political, social and economic setting of his books. His descriptions of sorcerers' battles are among the most skillful of those I've read. His protagonist, Caina, is the principal character.

Sitting among some of the more intriguing postulations on the nature of ghosts is that of what has gone on to become known as the Stone Tape Theory. The basic concept of what is now known as the Stone Tape Theory basically boils down to that certain locations, whether it be due to their construction, geological makeup, or some other unknown factor, have the ability to store mental energy or psychic impressions from certain past events, recording them in a sense as if images to film.

Storyline. A research team from an electronics company move into an old Victorian house to start work on finding a new recording medium. When team member Jill Greeley witnesses a ghost, team director Peter Brock decides not only to analyse the apparition, which he believes is a psychic impression trapped in a stone wall (dubbed a "stone tape"), but to exorcise it too - with terrifying results...
