IEC and British Standard fuses - Farnell element14
IEC and British Standard fuses — 5 CJ HRCI-J fast-acting fuses CIH, CIK and CIL HRCI — Misc. Type K fuses HRCI-J bolt-on, ceramic body fast-acting fuses are industrial duty fuses with the excellent current-limiting characteristics of fast-acting HRCI-J fuses to limit damage to equipment and installations from the thermal and magnetic energy associated with a large short-circuit current.

IEC and British Standard fuses - COOPER Bussmann - PDF ...
IEC 60269 unifies the electrical characteristics of fuses that are dimensionally interchangeable with fuses built to earlier British, German, French or Italian standards. The standard identifies application categories which classify the time-current characteristic of each type of fuse. The application category is a two-digit code.

IEC & British Standard Fuses - Kirby Risk
The Cooper Bussmann range of motor fuses are designed to meet the specific requirements necessary for motor protection. During the starting cycle of direct on-line motors, the fuse elements will reach a considerably higher temperature than during normal operation; (this is due to the high amount of current the motor will draw as it starts, typically, six times its normal load current value).
