Andrew Furness and Martin Muckett give an introduction to all areas of fire safety management, including the legal framework, causes and prevention of fire and explosions, fire protection measures, fire risk assessment, and fire investigation. Fire safety is not treated as an isolated area but linked into an effective health and safety management system. Introduction to Fire Safety Management has been developed for the NEBOSH Certificate in Fire Safety and Risk Management and is also suitable for other NVQ level 3 and 4 fire safety courses. The text is highly illustrated in full colour, easy to read and supported by checklists, report forms and record sheets. This practical approach makes the book a valuable reference for health and safety professionals, fire officers, facility managers, safety reps, managers, supervisors and HR personnel in companies, as well as fire safety engineers, architects, construction managers and emergency fire services personnel. Andrew Furness CFIOSH, GFireE, Dip2OSH, MIIRSM, MRSH, is Managing Director of Salvus Consulting Limited who specialise in Fire Safety. He was the chairman of the NEBOSH / IOSH working party that developed the NEBOSH Fire Safety and Risk Management certificate. Martin Muckett MA, MBA, CMIOSH, MIFireE, Dip2OSH, former Principal Health and Safety Advisor to The Fire Service Inspectorate and Principal Fire Safety Officer, Martin is currently Salvus Consulting Limited's Senior Fire Safety Trainer / Consultant. * Fully covers the syllabus for the NEBOSH Certificate in Fire Safety and Risk Management * Student-friendly presentation in full colour packed with illustrations and photographs * Includes a summary of legislation relevant to fire safety, ideal as a reference for students as well as practitioners

Every year people are killed or injured at work. Over 40 million working days are lost annually through work-related accidents and illnesses. This workbook can help different organisations, particularly smaller businesses, to carry out their own health and safety investigations.

This book was written with the belief that everyone globally has the right to a safe and healthy workplace. An 8-year old carrying bricks in the mid-day sun in Nepal, a pharmaceutical business executive on assignment in Bangladesh, or a mother polishing stone in her home in Tanzania; each has a fundamental right to a workplace free from risk of injury, illness, and death. Global Occupational Safety and Health Management Handbook is a broad presentation and discussion of the issues and obstacles facing the Occupational Safety and Health (OSH) profession today in providing safe workplaces globally. Readers can use this book to find resources to assist in the development of their programs and to become informed about the basic structures of international OSH development and governance. Readers can also rely on this book to become more aware of global OSH issues and problems that they may be personally or professionally willing and able to help address. Seasoned OSH professionals can expect to learn about new ways to look at complicated and controversial topics. Young professionals and students can read this book to better understand the important global OSH interrelationships and challenges of the future. Features Serves as a one-stop resource for information on important international safety and health topics and issues Provides detailed information about international OSH tripartite, nongovernmental, and professional organizations Describes the various global OSH educational and professional development needs, and international approaches to expanding capacity and awareness of the profession Discusses controversial international OSH working conditions and explains their global impacts

Collaborative/Therapeutic Assessment (C/TA), clients participate actively with the assessor in exploring how their test scores and patterns reflect who they are in their daily lives and how they can learn to help themselves cope with life's challenges. Using a case study approach to demonstrate how to apply C/TA in practice, Collaborative/Therapeutic Assessment provides practitioners with a variety of flexible and adaptable case examples featuring adults, children, adolescents, couples, and families from different backgrounds in need of treatment for assorted concerns. Designed for both experienced and novice clinicians, the book begins with a brief history of C/TA, and provides clear definitions of the distinctions among many common approaches. It uniquely presents: Eighteen diverse C/TA assessments covering: depression, multiple suicide attempts, severe abuse, dissociation, an adolescent psychiatric ward, custody evaluation, a couple in crisis, and collaborative neuropsychology Guidance on how both client and clinician can agree on the best course of action through joint exploration of assessment procedures, results, and implications Closely related approaches to psychological testing, including Individualized Assessment, Collaborative Assessment, Therapeutic Model of Assessment, Collaborative/Therapeutic Neuropsychological Assessment, and Rorschach-based psychotherapy Clearly labeled Teaching Points in each chapter Collaborative/Therapeutic Assessment provides psychologists in all areas of assessment, and at all levels of experience, with powerful C/TA examples that can dramatically illuminate and improve clients' lives.
