Chapter 6: Answers to Questions and Problems. When an input has well-defined and measurable quality characteristics and requires specialized investments, the optimal procurement method is a contract. A contract reduces the likelihood of opportunistic behavior and underinvestment by creating a legal obligation between the firms.

6 Economics (d) When the price of a product falls there will be an increase in the demand for a product. This will be represented by a movement along a demand curve. In this case, there has been a fall in the price of digital cameras since they were first introduced. As a result demand has increased. This would be
