Despite the myraid supply chain management approaches that have been spawned over the last decade or more, retailers have been unable to put a dent in out-of-stocks at store level, Why is that? Andre' Martin, Mike Doherty, and Jeff Harrop- all experienced practitioners, consultants, and implementation specialists in the field of time-phased supply chain planning - have been asking themselves the same question and have come to the conclusion that 1) far less forecasting is needed in the retail supply chain and 2) the only forecasting that needs to happen is at the store shelf. Flowcasting the Retail

Supply Chain outlines a breakthrough approach for supply chain planning that mimics the natural flow of products from the factory to the consumer. It is the first and only approach that truly puts the consumer front and center when planning the supply chain.

This handbook provides a comprehensive view of the field of the sociology of gender. It presents the most important theories about gender and methods used to study gender, as well as extensive coverage of the latest research on gender in the most important areas of social life, including gendered bodies, sexuality, carework, paid labor, social movements, incarceration, migration, gendered violence, and others. Building from previous publications this handbook includes a vast array of chapters from leading researchers in the sociological study of gender. It synthesizes the diverse field of gender scholarship into a cohesive theoretical framework, gender structure theory, in order to position the specific contributions of each author/chapter as part of a complex and multidimensional gender structure. Through this organization of the handbook, readers do not only gain tremendous insight from each chapter, but they also attain a broader understanding of the way multiple gendered processes are interrelated and mutually constitutive. While the specific focus of the handbook is on gender, the chapters included in the volume also give significant attention to the interrelation of race, class, and other systems of stratification as they intersect and implicate gendered processes.

From *Sister Wives* and *Big Love* to *The Book of Mormon on Broadway*, Mormons and Mormonism are pervasive throughout American popular media. In *Latter-day Screens*, Brenda R. Weber argues that mediated Mormonism contests and reconfigures collective notions of gender, sexuality, race, spirituality, capitalism, justice, and individualism. Focusing on Mormonism as both a meme and an analytic, Weber analyzes a wide range of contemporary media produced by those within and those outside of the mainstream and fundamentalist Mormon churches, from reality television to feature films, from blogs to YouTube videos, and from novels to memoirs by people who struggle to find agency and personhood in the shadow of the church's teachings. The broad archive of mediated Mormonism contains socially conservative values, often expressed through neoliberal strategies tied to egalitarianism, meritocracy, and self-actualization, but it also offers a passionate voice of contrast on behalf of plurality and inclusion. In this, mediated Mormonism and the conversations on social justice that it fosters create the pathway toward an inclusive, feminist-friendly, and queer-positive future for a broader culture that uses Mormonism as a gauge to calibrate its own values.

When Ma, the Kid, her twelve year old son, and Jake, the hired man, first appeared on the pages of Maclean's and shortly after on CBC Radio, the lively boy and his cranky hero found their way into the hearts of thousands of readers. Now, in this new edition of *Jake and the Kid*, *Crocus*, a prairie town in the forties and fifties, comes alive once again. In these lovingly rendered stories, we encounter the glorious minutia of small town life on the Canadian prairie. Jake and the Kid are surrounded by an entire community of richly eccentric characters: old Sam Gatenby, a rival to Jake and just as cantankerous; Miss Henschbaw, the stern and proper Rabbit Hill schoolteacher; and Mayor MacTaggart, the owner of the town's General Store. In all, W.O. Mitchell created about eighty characters to populate the town, including Daddy Johnson, the oldest man in Canada; Repeat Golightly, the philosophizing barber; and Professor Noble Winesinger, a conman with a heart. Touching and laugh-out-loud funny in equal measure, this classic Canadian story collection epitomizes the magic of W.O. Mitchell's storytelling. Pitting tall tale against reality, Mitchell delivers a realm resplendent with a vibrant setting, a compelling cast of characters, and everyday events that speak directly to what it means to be human.

For over four years, Ferm and Tee have been performing to sold-out audiences across the country. The Pump and Dump Show is a fun and rowdy evening of comedy, singing, games, prizes, drinking, cursing and commiseration, with a clear and universal theme: Parenting is screwed up and hilarious, and we're all just doing the best we can. Motherhood is wonderful for many reasons, but moments of clarity are so often outweighed by public outbursts, poison control phone calls and poop (everywhere!) it's difficult to stop and realize that it's not always a direct reflection of our parenting skills. This gift book is a collection of segments from Ferm and Tee's popular show, including: The Most F**ked Up Thing Your Kid Has Done Recently cards. One of the most popular segments of the show, members of the audience write down crazy and memorable things their kids have done. It is hysterical, cathartic, and never disappoints. Sad Cake moments. Ever eaten cake that was just kind of sad? It's a situation, happen-stance or object that is a bit of a bummer, like getting in a fight on date night or getting puked on when there is no wine in the house. #SadCake Stump the Breeder trivia questions. So you think making a person makes you an expert on making a person? Test your knowledge by answering "extremely difficult" questions so you feel like you know what you're doing. Awesome MOMents. Games for moms to play when and if they ever get a night with friends, like: The Parentally Incorrect Drinking Game-If you've done it, you drink. If you haven't done it, you drink. Lies We Tell Ourselves Before We Have Kids. I'll still hang out after the kids go to bed. Yes you will. But not with your friends. With a glass of wine to help you forget the smell of spit up.

From Tunisia to China, activists and journalists are using technology to get vital news out and bring about change. As the battle to control information continues - from government surveillance and online blocking to big business to hacktivists and protesters - Index looks at the key players in the fight

for digital freedom. With Rebecca MacKinnon & Ethan Zuckerman: Tools for the future Jennifer Granick: Damage control Gabriella Coleman: Beacons of freedom Eric King: Trade secrets Ahmed Mansoor: free expression in Dubai Milton Mueller: Revolution in crisis Heather Bond: Ushahidi and crowd wisdom Pranesh Prakash: India's internet jam Hu Yong: microblogging in China Alex McGillivray on Twitter Frontline SMS: Anchor to the world. PLUS Fault lines: religion, culture and censorship with Edna Fernandes, Svetlana Mintcheva and Brad Adams AND Fiction from Roma Tearne and Jamal Ali's modern fable.

NAMED A NEW YORK TIMES NOTABLE BOOK OF 2017#1 New York Times and #1 Wall Street Journal bestseller! A five-hundred-year-old legend. An ancient curse. A stunning medical mystery. And a pioneering journey into the unknown heart of the world's densest jungle. Since the days of conquistador Hernán Cortés, rumors have circulated about a lost city of immense wealth hidden somewhere in the Honduran interior, called the White City or the Lost City of the Monkey God. Indigenous tribes speak of ancestors who fled there to escape the Spanish invaders, and they warn that anyone who enters this sacred city will fall ill and die. In 1940, swashbuckling journalist Theodore Morde returned from the rainforest with hundreds of artifacts and an electrifying story of having found the Lost City of the Monkey God—but then committed suicide without revealing its location. Three quarters of a century later, bestselling author Doug Preston joined a team of scientists on a groundbreaking new quest. In 2012 he climbed aboard a rickety, single-engine plane carrying the machine that would change everything: lidar, a highly advanced, classified technology that could map the terrain under the densest rainforest canopy. In an unexplored valley ringed by steep mountains, that flight revealed the unmistakable image of a sprawling metropolis, tantalizing evidence of not just an undiscovered city but an enigmatic, lost civilization. Venturing into this raw, treacherous, but breathtakingly beautiful wilderness to confirm the discovery, Preston and the team battled torrential rains, quickmud, disease-carrying insects, jaguars, and deadly snakes. But it wasn't until they returned that tragedy struck: Preston and others found they had contracted in the ruins a horrifying, sometimes lethal—and incurable—disease. Suspenseful and shocking, filled with colorful history, hair-raising adventure, and dramatic twists of fortune, THE LOST CITY OF THE MONKEY GOD is the absolutely true, eyewitness account of one of the great discoveries of the twenty-first century.

Despite remarkable economic advances in many societies during the latter half of the twentieth century, poverty remains a global issue of enduring concern. Poverty is present in some form in every society in the world, and has serious implications for everything from health and well-being to identity and behavior. Nevertheless, the study of poverty has remained disconnected across disciplines. The Oxford Handbook of the Social Science of Poverty builds a common scholarly ground in the study of poverty by bringing together an international, inter-disciplinary group of scholars to provide their perspectives on the issue. Contributors engage in discussions about the leading theories and conceptual debates regarding poverty, the most salient topics in poverty research, and the far-reaching consequences of poverty on the individual and societal level. The volume incorporates many methodological perspectives, including survey research, ethnography, and mixed methods approaches, while the chapters extend beyond the United States to provide a truly global portrait of poverty. A thorough examination of contemporary poverty, this Handbook is a valuable tool for non-profit practitioners, policy makers, social workers, and students and scholars in the fields of public policy, sociology, political science, international development, anthropology, and economics.
