Construction Procedures Handbook - New Jersey

The new bridge is a link between Vladivostok's mainland and island areas, and will become an important part of the Primorye region's transportation system. This bridge is of unique dimensions. The bridge's central span length and stay cable length of 1,104 m and 580 m, respectively, was a world record in 2012. The span deck height above the water level is 70 m. Bridge construction began in ...
