Once On This Island is very much about storytelling. If a group were to devise original material telling their own story in their own words (not utilizing sections of the script) and present the original material before and after the show, without altering the script and leaving the script interact, would additional permissions need to be sought?

~~Once on This Island | Music Theatre International~~

Once on This Island is a one-act musical with a book and lyrics by Lynn Ahrens and music by Stephen Flaherty. Based on the 1985 novel *My Love, My Love; or, The Peasant Girl* by Rosa Guy, it is set in the French Antilles archipelago in the Caribbean Sea. It concerns a peasant girl on a tropical island, who uses the power of love to bring people together of different social classes.

Records the courage and self-reliance of an Indian girl who lived alone for eighteen years on an isolated island off the California coast when her tribe emigrated and she was left behind.

This story tells of a poor peasant girl's impossible love for a rich city boy, and the disharmony of their two worlds

In this exhilarating celebration of human ingenuity and perseverance—published all around the world—a trailblazing Italian scholar sifts through our cultural and social behavior in search of the origins of our greatest invention: writing. The L where a tabletop meets the legs, the T between double doors, the D of an armchair's oval backrest—all around us is an alphabet in things. But how did these shapes make it onto the page, never mind form complex structures such as this sentence? In *The Greatest Invention*, Silvia Ferrara takes a profound look at how—and how many times—human beings have managed to produce the miracle of written language, traveling back and forth in time and all across the globe to Mesopotamia, Crete, China, Egypt,

Central America, Easter Island, and beyond. With Ferrara as our guide, we examine the enigmas of undeciphered scripts, including famous cases like the Phaistos Disk and the Voynich Manuscript; we touch the knotted, colored strings of the Inca quipu; we study the turtle shells and ox scapulae that bear the earliest Chinese inscriptions; we watch in awe as Sequoyah single-handedly invents a script for the Cherokee language; and we venture to the cutting edge of decipherment, in which high-powered laser scanners bring tears to an engineer's eye. A code-cracking tour around the globe, *The Greatest Invention* chronicles a previously uncharted journey, one filled with past flashes of brilliance, present-day scientific research, and a faint, fleeting glimpse of writing's future.

After successfully deciphering the Rongorongo script of Easter Island, Steven Roger Fischer gained a unique place in the pantheon of glyphbreakers: he is the only person to have deciphered not one but two ancient scripts. Both of these scripts yield clues of great historical importance. Fischer's previous decipherment, of a Cretan artefact called the Phaistos Disk, provided the key to the ancient Minoan language and showed it to be closely related to Mycenaean Greek. Fischer's decipherment of Rongorongo shows that it was not merely a mnemonic device for recalling memorised texts, but was

actually read and used for creative composition. This is the exciting story of these two decipherments, by the man who now must rank as the greatest glyphbreaker of all time.

(Piano/Vocal/Guitar Songbook). Features 18 piano/vocal selections from this Broadway hit that won both Tony and Drama Desk awards. Includes a plot synopsis, sensational color photos, and these tunes: The Ballad of Farquard \* Big Bright Beautiful World \* Build a Wall \* Don't Let Me Go \* Donkey Pot Pie \* Finale (This Is Our Story) \* Freak Flag \* I Know It's Today \* I Think I Got You Beat \* Make a Move \* More to the Story \* Morning Person \* Story of My Life \* This Is How a Dream Comes True \* Travel Song \* What's Up, Duloc? \* When Words Fail \* Who I'd Be.

On a long stretch of green coast in the South Pacific, hundreds of enormous, impassive stone heads stand guard against the ravages of time, war, and disease that have attempted over the centuries to conquer Easter Island. Steven Roger Fischer offers the first English-language history of Easter Island in *Island at the End of the World*, a fascinating chronicle of adversity, triumph, and the enduring monumentality of the island's stone guards. A small canoe with Polynesians brought the first humans to Easter Island in 700 CE, and when boat travel in the South Pacific drastically decreased around

1500, the Easter Islanders were forced to adapt in order to survive their isolation. Adaptation, Fischer asserts, was a continuous thread in the life of Easter Island: the first European visitors, who viewed the awe-inspiring monolithic busts in 1722, set off hundreds of years of violent warfare, trade, and disease—from the smallpox, wars, and Great Death that decimated the island to the late nineteenth-century Catholic missionaries who tried to "save" it to a despotic Frenchman who declared sole claim of the island and was soon killed by the remaining 111 islanders. The rituals, leaders, and religions of the Easter Islanders evolved with all of these events, and Fischer is just as attentive to the island's cultural developments as he is to its foreign invasions. Bringing his history into the modern era, Fischer examines the colonization and annexation of Easter Island by Chile, including the Rapanui people's push for civil rights in 1964 and 1965, by which they gained full citizenship and freedom of movement on the island. As travel to and interest in the island rapidly expand, Island at the End of the World is an essential history of this mysterious site.
