The Crystal World Quotes Showing 1-4 of 4 " The crystal trees among them were hung with glass-like trellises of moss. The air was markedly cooler, as if everything was sheathed in ice, but a ceaseless play of light poured through the canopy overhead. The process of crystallization was more advanced.

The Crystal World Quotes by J.G. Ballard - Goodreads

J. G. Ballard ' s The Crystal World (1966) is a prismatic text, apparently translucent yet linguistically opaque, with moments of unexpected ontological intricacy. Like the crystals consuming the forest, Ballard ' s descriptive language itself multiplies, encrusting the novel in adjectival embellishment and convoluted pseudo-science.

Ballard's books have remained fresh decades after they were first published, and the thoughts collected in J.G. Ballard: Quotes have worn equally as well. Small enough to fit in a pocket, this book brings together J. G. Ballard's trenchant thoughts on music, film, celebrity, the rise of corporate media, the death of reality, and much more. Grouped by topics such as "Sex: Relationships, Sex x Technology equals the Future, Pornography" and "Surrealism, Imagination," these quotes are both concise and clear, and provide a strong beacon for readers who are used to a baffling daily assault of advertisements, phone calls, and e-mails. They are also an excellent resource to help readers better understand Ballard's novels, which stand among the most visionary, provocative literature of the 20th century. A Ballardian glossary, the essay "Guide to Virtual Death," and a bibliography round out this excellent resource.

"The Crystal World

"This fable lifts a great freight of ideas effortlessly...The story of an expedition driven on by wishes of possession and power but guided internally by myths of America whose sources lie in the late 20th century." —Guardian Following the energy crisis of the late twentieth century, America has been abandoned. Now, a century later, a small group of European explorers returns to the now climatically mutated continent. But America is unrecognizable—the Bering Strait has been dammed and much of the country has become a desert, populated by isolated natives and the bizarre remnants of a disintegrated culture. The expedition sets off from Manhattan on a cross-country journey, through Holiday Inns and abandoned theme parks, to uncover a shocking new power in the heart of Las Vegas.

Prophetic short stories and apocalyptic novels like The Crystal World made J. G. Ballard a foundational figure in the British New Wave. Rejecting the science fiction of rockets and aliens, he explored an inner space of humanity informed by psychiatry and biology and shaped by Surrealism. Later in his career, Ballard's combustible plots and violent imagery spurred controversy--even legal action--while his autobiographical 1984 war novel Empire of the Sun brought him fame. D. Harlan Wilson offers the first career-spanning analysis of an author who helped steer SF in new, if startling, directions. Here was a writer committed to moral ambiguity, one who drowned the world and erected a London high-rise doomed to descend into savagery--and coolly picked apart the characters trapped within each story. Wilson also examines Ballard's methods, his influence on cyberpunk, and the ways his fiction operates within the sphere of our larger culture and within SF itself.

A collection of novelist's non-fiction writings spanning more than thirty years addresses topics including the arts, science, literature, popular culture, and his own life

Long-regarded as one of the true visionary writers of the twentieth century, J.G. Ballard was one of the first British writers of the post-war period to begin to see, and to map out in his fiction, the future course of our civilization. For forty years his unflinching eye has turned to the point where the advancing edge of our technological progress has worn away our inner humanity. Eden-Olympia is more than just a multinational business park, it is a virtual city-state in itself, with the latest in services and facilities for the most elite high-tech industries. Isolated and secure, overlooking the luxurious French Riviera, the residents lack nothing. Yet one day Dr. Greenwood from Eden-Olympia's clinic goes on a suicidal shooting spree. Dr. Jane Sinclair is hired as his replacement, and she and her husband, Paul, are given Dr. Greenwood's house as a residence. Unable to work while recovering from an accident, Paul spends his days taking a close look at the house where Dr. Greenwood shot himself and three hostages. He discovers clues in the house lead him to question Eden-Olympia's official account of the killings. Drawn into investigating the activities of the park's leading citizens, while Jane is lured deeper into Eden-Olympia's inner workings, Paul uncovers the dangerous psychological vents that maintain Eden-Olympia's smoothly running surface. An experiment is underway at Eden-Olympia, an experiment in power and brutality. Soon Paul finds himself in race to save himself and his wife before they are crushed by forces that may be beyond anyone's control.

The classic novel of luxury and depravity, now a major motion picture. From the author of the celebrated dystopian classics Kingdom Come, The Drowned World, and The Drought, High Rise is a prescient story of class warfare. The film adaptation by acclaimed director Ben Wheatley (Sightseers, Kill List) features Academy Award® winner Jeremy Irons; BAFTA Award nominee Tom Hiddleston and Sienna Miller; Luke Evans and Golden Globe Award® winner Elisabeth Moss. When explosive loyalties form inside a luxurious apartment block isolated from the rest of society, modern elevators become fierce battlegrounds and cocktail parties degenerate into marauding attacks on " enemy " floors. In this chilling tale, humanity slips into violent reverse as once-peaceful residents, driven by primal urges, re-create a world ruled by the laws of the jungle.

An apocalyptic dystopia like no other, one whose "originality and power [of] vision can be felt" (Times Literary Supplement). Weird and mesmerizingly grotesque, The Drought tells the chilling story of the world on the brink of extinction, where a global drought, brought on by industrial waste, has left mankind in a life-or-death search for water. Violence erupts and insanity reigns as the human race struggles for survival in a worldwide desert of despair.
