The Psychology Of Dexter

The Psychology of Dexter is a series of essays written by mental health types who look at some of the mental health aspects of the show. I enjoyed several of them but lost interest in the book after about 75%-- it just seemed to get repetitive. I'll be doing a blog series on this book. I'll post the links here after they go live.

THE PSYCHOLOGY OF DEXTER: COMPLETELY UNAUTHORIZED By ...

Childhood Trauma and Post-Traumatic Stress Disorder (PTSD) I propose that the show ' s implication that Dexter is a psychopath is a misdiagnosis and that, in fact, Dexter is a victim of childhood post-traumatic stress. At the age of five, Dexter experienced the most horrendous type of trauma imaginable.

The Psychology of Dexter | Bella DePaulo (editor) | download

Its titular character methodically tracks his victims, ensuring that they meet his code before they wind up on his table; Dexter Morgan only tracks and kills other killers to ease the burden of his psychosis. Though Dexter primarily focuses on the mental wanderings of its dark hero (the show is studded with voice-over commentary that delves into his state of mind), the mental lives of other characters are also fraught with psychological complications.

Aimed at Dexter devotees and armchair psychologists, The Psychology of Dexter takes on the psychological complexities of the popular series with an eye towards insight and accessibility. It analyzes not just the title character, but his family, coworkers, and even his viewers. What makes Dexter tick?

Peek inside the mind of Dexter Morgan—police forensic analyst, family man, serial killer, and the star of Showtime ' s most-watched series—with essays from seventeen psychologists and avid fans. Aimed at Dexter devotees and armchair psychologists, The Psychology of Dexter takes on the psychological complexities of the popular series with an eye towards insight and accessibility. It analyzes not just the title character, but his family, coworkers, and even his viewers. What makes Dexter tick? What makes a show about a serial killer so appealing to those of us at home. And do we need to be worried about our own Dark Passengers? From the implications of faking normalcy (could it be behind Dexter ' s still-in-progress emotional growth?) to where the show weighs in on the psychological debate between nature and nurture, this book gives fans a peek inside Dexter ' s psyche. Think you know Dexter? The Psychology of Dexter will make you think again.

What explains the huge popular following for Dexter, currently the most-watched show on cable, which sympathetically depicts a serial killer driven by a cruel compulsion to brutally slay one victim after another? Although Dexter Morgan kills only killers, he is not a vigilante animated by a sense of justice but a charming psychopath animated by a lust to kill, ritualistically and bloodily. However his gory appetite is controlled by " Harry ' s Code, " which limits his victims to those who have gotten away with murder, and his job as a blood spatter expert for the Miami police department gives him the inside track on just who those legitimate targets may be. In Dexter and Philosophy, an elite team of philosophers don their rubber gloves and put Dexter ' s deeds under the microscope. Since Dexter is driven to ritual murder by his " Dark Passenger, " can he be blamed for killing, especially as he only murders other murderers? Does Dexter fit the profile of the familiar fictional type of the superhero? What part does luck play in making Dexter who he is? How and why are horror and disgust turned into aesthetic pleasure for the TV viewer? How essential is Dexter ' s emotional coldness to his lust for slicing people up? Are Dexter ' s lies and deceptions any worse than the lies and deceptions of the non-criminals around him? Why does Dexter long to be a normal human being and why can ' t he accomplish this apparently simple goal?

Forensic analyst and nighttime vigilante Dexter Morgan discovers that he is being followed by a killer who is copying his methods, an adversary whom Dexter seeks to outmaneuver using his trademark knack for extricating himself from trouble.

The inspiration behind the hit podcast THE 100 TYPES OF HUMAN with DEXTER DIAS and BBC 5 Live host NIHAL ARTHANAYAKE 'This book is the one. Think Sapiens and triple it.' - Julia Hobsbawm, author of Fully Connected _____ We all have ten types of human in our head. They're the people we become when we face life's most difficult decisions. We want to believe there are things we would always do - or things we never would. But how can we be sure? What are our limits? Do we have limits? The Ten Types of Human is a pioneering examination of human nature. It looks at the best and worst that human beings are capable of, and asks why. It explores the frontiers of the human experience, uncovering the forces that shape our thoughts and actions in extreme situations. From courtrooms to civil wars, from Columbus to child soldiers, Dexter Dias takes us on a globe-spanning journey in search of answers, touching on the lives of some truly exceptional people. Combining cutting-edge neuroscience, social psychology and human rights research, The Ten Types of Human is a provocative map to our hidden selves. It provides a new understanding of who we are - and who we can be. _____ 'The Ten Types of Human is a fantastic piece of non-fiction, mixing astonishing real-life cases with the latest scientific research to provide a guide to who we really are. It's inspiring and essential.' - Charles Duhigg, author of The Power of Habit 'I emerged from this book feeling better about almost everything... a mosaic of faces building into this extraordinary portrait of our species.' - Guardian 'Uplifting and indispensable.' - Howard Cunnell _____ What readers are saying about 'the most important book in years': 'utterly compelling...this one comes with a warning - only pick it up if you can risk not putting it down' - Wendy Heydorn on Amazon, 5 stars 'one of the most remarkable books I've read... I can genuinely say that it has changed the way I view the world' - David Jones on Amazon, 5 stars 'Essential reading for anyone wishing to understand the human condition... a thrilling and beautifully crafted book' - Wasim on Amazon, 5 stars 'This is the most important book I have read in years' - Natasha Geary on Amazon, 5 stars 'an important and fascinating read... It will keep you glued to the page' - Hilary Burrage on Amazon, 5 stars 'a journey that I will never forget, will always be grateful for, and I hope will help me question who I am... a work of genius' - Louise on Amazon, 5 stars 'This is a magnificent book that will capture the interest of every type of reader... one of those rare and special books that demand rereading' - Amelia on Amazon, 5 stars 'I simply couldn't put it down... one of the most significant books of our time' - Jocelyne Quennell on Amazon, 5 stars 'Read The Ten Types of Human and be prepared to fall in love' - Helen Fospero on Amazon, 5 stars

Meet Dexter Morgan, a polite wolf in sheep ' s clothing. He ' s handsome and charming, but something in his past has made him abide by a different set of rules. He ' s a serial killer whose one golden rule makes him immensely likeable: he only kills bad people. • The Killer Character That Inspired the Hit Showtime Series Dexter And his job as a blood splatter expert for the Miami police department puts him in the perfect position to identify his victims. But when a series of brutal murders bearing a striking similarity to his own style start turning up, Dexter is caught between being flattered and being frightened – of himself or some other fiend.

Dexter Morgan, a secret assassin working as a blood spatter analyst for the Miami Police Department, finds his efforts to seek domestic tranquility undermined by a psychopath terrorizing the city.

DARKLY DREAMING DEXTER: Dexter Morgan can't stand the sight of blood. Which makes his job as a blood spatter analyst for the Miami PD a little tricky. But it means that he's very tidy when it comes to his hobby: murder. After all, even though Dexter only ever kills bad people, he doesn't want to draw attention to it. But now there's another killer out there who's being a whole lot less subtle 2 DEARLY DEVOTED DEXTER: Miami's best-dressed serial killer is getting twitchy - he hasn't killed for months. Ever since their paths first crossed, Sergeant Doakes hasn't let Dexter Morgan out of his sight. Then a body turns up, mutilated and barely alive. To trap the torturer, Doakes and Dexter will have to work together, if they can trust each other. It's a devil's pact and one of them will have to be the bait... DEXTER IN THE DARK: When Dexter is brought in to analyse a charred headless corpse, it seems he's dealing with a killer even more sinister than he is, and one with a personal interest in him. And with Dexter now having a wedding to plan and a family to protect, the stakes are high. As he realises his step-children might share his blood-lust, if he's ever to help them target it, Dexter will first have to stay alive himself.

Serial killer Dexter Morgan reevaluates his life views upon the birth of his daughter and investigates the disappearance of a teenage girl who has been running with a group of goths rumored to be engaging in cannibalism.

Forensic analyst and nighttime vigilante Dexter Morgan discovers that he is being followed by a killer who is copying his methods, an adversary whom Dexter seeks to outmaneuver using his trademark knack for extricating himself from trouble.
