he considers

separation and the anxiety that accompanies it: the fear of imminent or anticipated separation, the fear induced by parental threats of separation, and the inversion of the parent-child relationship. Dr Bowlby re-examines the situations that

not? Through a richly detailed examination of India's experience, *Locked in Place* argues that the critical factor was the reaction of domestic capitalists to the state-building project.

During the 1950s and 1960s, India launched an extremely ambitious and highly regarded program of

development. But it soon became clear that the Indian state lacked the institutional capacity to carry out rapid industrialization.

Drawing on newly available archival sources, Vivek Chibber mounts a forceful challenge to conventional arguments by

Showing that the insufficient state capacity stemmed mainly from Indian industrialists' massive campaign, in the years after Independence, against a strong developmental state. Chibber contrasts India's experience with the success of a similar program of

Provocative and marked by clarity of prose, this book is also the first historical study of India's post-colonial industrial strategy. Emphasizing the central role of capital in the state-building process, and restoring class

In recent years, three ancient manuscripts relating to the Yi jing (I Ching), or Classic of Changes, have been discovered. The earliest—the Shanghai Museum Zhou Yi—dates to about 300 B.C.E. and shows evidence of the text's original circulation.

The Guicang, or Returning to Be Stored, reflects another ancient Chinese divination tradition based on hexagrams similar to those of the Yi jing. In 1993, two manuscripts were found in a third-century B.C.E. tomb at Wangjiatai that contain almost exact
